In February of 2018 the ACE Packaging branches nationwide re-launched as ACE Retail Solutions. This new and exciting name encompasses not only what we offer to our customers – SOLUTIONS – but also how we do it – PRODUCT – PARTNERSHIP – PROFESSIONALISM. In developing our brand positioning a number of truisms appeared that distinguish ACE from our competitors and reflect service excellence coupled with product quality and range delivered by knowledgeable, professional people who are trusted – making ACE the undisputed market leader. Our brand promise to you:

Only ACE will deliver the quality and range of products and service professionalism that makes us your trusted partner in the retail sector.

Pest Control

Pest Control Specialists was founded in 1978, and has a comprehensive footprint throughout Southern Africa. We adhere to the highest standards of professionalism and performance and are committed to total customer satisfaction.

Our main competitive advantage is the fact that all our branches are run by owner operators. This offers our customers many advantages, including greater accountability from their service provider, direct communication with the owner of the business, and 24/7 availability.

We are a 100% South African owned business. By supporting us you are supporting a business owner in your local community – just like yourself.

Thermometers

P M Instrumentation CC (PMI) was established in 1999 as a specialist supplier of digital thermometers. We now sell products covering a wide range of applications, for example: hand-held thermometers, pH meters, moisture and humidity meters, scales and balances, and other instruments necessary for use in food quality control.

Specialising in temperature measurement, PMI carved out a niche in a variety of industries where temperature measurement is crucial. In its years since establishment, PMI has grown to become one of the leading suppliers of all kinds of temperature measuring equipment in South Africa.
